

The Role – Assembly Technician

We are looking for the right someone for our Assembly Operations with a '**positive can do attitude**', and with proven skills or experience in:

- Assembling and installing fittings and accessories to poly tanks, agricultural units (sprays, booms, backpacks, and trailers)
- Installing and plumbing pump systems (electric and combustion engine) to tanks, trailers, etc.
- Manufacturing and assembling Firefighting units and trailers

Reporting to the Operations Manager you work in a team where you will demonstrate your experience and skill using all hand and power tools to produce quality products.

You will also:

- Take pride in your work.
- Be able to think things through,
- Attend work on time; and each day,
- Have an eye for detail and quality,
- Work efficiently and safely, within a team,
- Read and understand BOMs, SOPs and directions,
- Don't waste time and resources and getting the job done.

You must have:

- **A reliable vehicle and current drivers licence.**

We make Quality products and we want *a mature hard working, conscientious and physically fit person with drive and positive work ethics to put it all together.*

Why join Rapid Spray?

We're a growing company committed to quality in our work, products and services to our valued customers and therefore we need the best team.

We provide variety of work, great opportunities to train, learn and develop your career whilst being rewarded and recognised for your contribution.

Interested? Contact us now by sending a COVER LETTER, and your **Resume with your work history and current employer referees** to:
