INTRODUCTION

Thank you for your purchase of a Rapid Spray Free Standing Water Cartage Tank. Ideally suited to water cartage for contractors, farmers, earth movers, landscapers, potable water carriers and many other applications, these tanks are manufactured to highest Australian standards, making them the toughest and most durable tanks on the market.

This booklet covers all Aqua-V, Active Liquid and Mega Molasses tank models. Please be aware of the different load capacity of your tank, as incorrect usage can cause damage (see page 5).

DISCLAIMER: In line with our policy of continuous improvement, the weights, dimensions and design may change slightly from what is shown in this operators handbook.

WARNING: Always obey vehicle and UTI/ATV manufacturer instructions regarding loading and operation. Please check weight restrictions. Serious death or injury can occur from improper usage. Rapid Spray accepts no liability for the unsafe operation of this unit.
WARNINGS

Read all warnings below and obey any instruction stickers or warnings on the spray unit. Failure to do so may result in serious bodily harm or death.

1. When mounting to any vehicle, ensure that you have read the Vehicle Owner’s Manual and that you comply with all the weight restrictions as specified by the vehicle manufacturer, as overloading can cause injury or death. Remember that one litre of water weighs one kilogram. Ensure equipment is secure during transport.

2. To ensure your own safety and that of your employees or colleagues (if applicable) you must comply with all relevant environmental, work place health and safety legislation and codes of practice.

3. Ensure the tank is firmly secured in an appropriate manner. Where applicable, tank mounting may need to be designed / approved by an engineer.

4. Care should be taken at all times, particularly when operating on rough or steep terrain. Drivers should be aware of water surge at all times.

5. WHS requirements for working at heights must be complied with where applicable.

6. Select and wear appropriate Personal Protective Equipment (PPE) in accordance with the safe work practices.

7. Improper or careless use of this tank can cause serious injury or death. Minors or persons under the influence of alcohol or drugs should never be allowed to use this tank.

8. The cartage tank is a confined space. Ensure compliance with WHS requirements when entering inside the tank.

9. You must be in good mental health to operate this tank and not be under the influence of alcohol or any drugs that could impair your vision, physical strength, dexterity, judgment or other mental capacity.

10. Do not eat, drink or smoke while filling to avoid ingestion of chemicals / liquids. Do not carry or store lunch boxes or other food and drink with tank.

11. Carry out maintenance as per the recommendations. Ensure that the tank is cool and securely stabilised on a level surface before commencing maintenance.

12. Tanks are not certified for the storage of transport of Dangerous Goods. Do not carry any liquid or substance without first confirming in writing it’s suitability for use with the manufacturer.

! WARNING !

Always obey vehicle and UTV/ATV manufacturer instructions regarding loading and operation. Please check weight restrictions. Serious death or injury can occur from improper usage. Rapid Spray accepts no liability for the unsafe usage of this tank.
# PRODUCT RISK ASSESSMENT

<table>
<thead>
<tr>
<th>TASK</th>
<th>HAZARDS</th>
<th>RISK</th>
<th>CONTROL MEASURES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ensure tank mounted correct on vehicle. Do not overload vehicle. Partially fill tank with water and test the tank or pumping system if necessary before use.</td>
<td>Load not secured; overload vehicle; manual handling; slips, trips or falls; fingers jammed; overhead power-lines - electricity leaks; tanks is a confined space.</td>
<td>Med</td>
<td>Read / follow decals on tank; follow safe manual handling techniques; don’t lift on your own if &gt; 20kg, bend knees and keep back straight; keep fingers clear; keep tank is at least 8m away from overhead powerlines; keep water away from electrical sources; make sure tank mounted securely - mounting to comply with all relevant codes of practice and transport authority requirements; don’t exceed vehicle load limit; follow state legislation &amp; AS 2865:2001 Confined Spaces; chassis mount frame to be designed by licensed truck body engineer if used on public roads.</td>
</tr>
<tr>
<td>Check weather and ground conditions for stability.</td>
<td>Manual handling; ground instability.</td>
<td>Low</td>
<td>Follow safe manual handling techniques as above; drive cautiously to suit ground and weather conditions.</td>
</tr>
<tr>
<td>Fill tank with water / other liquid using a pump, hydrant, hose or similar apparatus.</td>
<td>Manual handling; slips, trips or falls; ground instability; weather conditions; falling from height; use of chemicals</td>
<td>Med</td>
<td>As above; ensure fall prevention strategy exists if on the tank whilst on the back of a vehicle filling the tank; work platform or hand rails in place; person secured with safety line or harness fall arrest system in place; follow MSDS</td>
</tr>
<tr>
<td>Check the transport vehicle is safe before use i.e. where applicable: wheel nuts, tyre pressure and condition, bearings, tow hitch, up to date servicing etc.; driving and using water tank from a vehicle; take into account the sway of the water in the tank when driving.</td>
<td>As above; loss of load; work in heat &amp; cold; noise; exceed load limit of vehicle; strap breakage; hose entanglement; exhaust fumes; terrain &amp; slopes.</td>
<td>High</td>
<td>As above; wear clothes to suit heat &amp; cold, wear hearing protection if pump noise &gt; 85dBA; follow the manufacturer’s safe operation instructions for the vehicle and the pump / spray unit; don’t overload - water weighs 1kg : 1L; secure load to vehicle; keep hose attachments tidy. Rapid Spray recommended s the use of the Ball Baffle system to control liquid surge.</td>
</tr>
<tr>
<td>Clean up, maintenance and storage</td>
<td>As above where applicable</td>
<td>Low</td>
<td>As above; store tank in a dry, well ventilated area.</td>
</tr>
</tbody>
</table>
WARNING LABELS

Please take note of the stickers which are attached to the tank below. Please ensure that these instructions are followed. Safety decals should be kept clean and legible at all times. If any decals are missing or unreadable, they should be replaced by ordering new labels from your Rapid Spray dealer. Use the part numbers as shown on the stickers.

**CAUTION**

Do not exceed vehicle manufacturers loading, towing or lifting specifications or regulations.
Ensure tank is firmly supported in a safe and appropriate manner.
Use caution at all times, particularly when driving on rough or steep terrain as liquid load will shift.
Comply with chemical manufacturer’s safety requirements and all relevant legislation.

**WARNING**

THIS LUG IS NOT A LIFTING POINT

**IMPORTANT NOTICE**

FREE STANDING WATER CARTAGE TANKS MUST BE FULLY SUPPORTED ON A FLAT SURFACE.
IT IS NOT SUFFICIENT TO SUPPORT THE LEGS ONLY AS THIS CAN CAUSE FAILURE, RESULTING IN DEATH OR INJURY.

CKA008  CKA010  CKA020
LOAD CAPACITY

Please take note of your tank model’s load capacity. Do not exceed your tank model’s load capacity. If you are unsure of your tank model, please contact your local dealer.

**FRAME DESIGN**

Tank warranty is conditional on the tank correctly mounted. Where applicable mounting may have to be designed and/or approved by an engineer.

Bottom of tank must be supported over full length of tank

Every leg must be fully supported

Provide support for edges of baffle box

M10x75 High Tensile hold down bolts to AS1110 (pins must be bolted down)

Mild steel hold down pins (supplied)

Lugs not to be used to lift tank

Connection to tank must be made with flexible hose

Lateral stops on all legs*

*Lateral stops recommended for all tanks 3,000L and larger.
**FABRICATION DETAILS | TANK SKID**

Fully welded frame made from channels, angles or rolled hollow mild steel sections to AS3679.1-25/300 minimum recommended wall angles 8mm, RHS 3mm

M10x75 high tensile bolts to AS1110

Mild steel pin (supplied)

Lugs not to be used to lift tank

All points of base must be supported
TANK FITTING LOCATIONS

**CAUTION:** Placing fittings in locations other than those recommended may result in failure or damage and void the warranty.

Only use approved fittings such as brass, poly, poly-welded 1” - 6”. Only tanks 10,000L and above can accept fittings larger than 4”.

- Recommended tank fitting locations
