EL NIÑO ADVISORY

THE BUREAU HAS CALLED IT.
El Niño was declared in June 2026 and is forecast to hold through February. For much of eastern and northern Australia that means hotter, drier, and a longer fire season. Water on the property is the difference between a spot fire and a bad day. Don't wait for the first total fire ban, that's when everyone else orders.

ALREADY RUNNING A FIRESCOUT OR FIRE MARSHAL?

A cartage tank keeps it filled.
See pg. 2
